

IS YOUR PET OVERWEIGHT? YOU CAN HELP REVERSE THE TREND!

According to a 2009 study 45% of dogs and 58% of cats in the United States are overweight or obese. So how can we make sure your pet isn't part of the statistic? Spring Meadow Veterinary Clinic is teaming up with Purina Veterinary Diets® to provide a canine and feline weight loss program. A healthy weight can mean a better defense against weight-related diseases and a longer, healthier, happier life for your pet!

Please call to schedule a consultation to get a Body Condition Score and a diet recommendation to help achieve a healthy weight loss target of 1 to 2 percent a week for your pet! Some things to keep in mind when watching your pet's figure: feed and treat responsibly – don't give in to your begging friend and make sure your family is on board as well; Stay active – walking is great, but playful activities burn calories too; and stick to the plan – weight loss programs take patience and discipline and we at Spring Meadow Vet Clinic are here to help you with this heavy task. Come in today to find out how you can save big on the following Purina Weight Loss Products for your pet!!
